What the Pros Know

Hydrochloric Acid Bowl Cleaners aggressively go after mineral deposits. Their use is advised in areas with high mineral content water supplies.

Do NOT mix with bleach, ammonia, or non-acid restroom products. Clinging products provide improved cleaning ability on vertical surfaces.

- Ready to use - Convenient, no mixing
- 9.5% hydrochloric cleaner - Strong enough for heavy soils, yet gentle enough for everyday use
- EPA registered disinfectant - Proven germ killing power
- Deodorizing fresh fragrance - Leaves rooms smelling fresh and clean
- Color Indicated - Shows instant action
- Detergent thickened - Clinging action improves cleaning ability

Specially formulated with ultra-thick detergents and a buffered acid to quickly penetrate soils and remove mineral deposits. This sophisticated product features a color indicator to show instant action on bowls and urinals. EPA registered as a one-step cleaner, disinfectant and deodorizer. Recommended for regular maintenance of toilet bowls and urinals. Kills germs such as Staphylococcus aureus (staph), Staphylococcus aureus-methicillin resistant (MRSA), Enterococcus faecalis-vancomycin resistant (VRE), Salmonella choleraesuis (salmonella), and HIV-1.
