

QSC FoamClean

QUALITY SKIN CARE

TOUCHFREE

M-STYLE FOAM DISPENSER

TouchFree Offers Less restroom cross-contamination of germs, improved hand hygiene and a more sanitary facility.

Dispenses From the Top The dispenser valve placement lets users see the amount of product being dispensed into their hand, thus reducing waste caused by over-dispensing. Dispenses .75 mL per push.

Easy-to-See Indicator Lights The sensor lights up blue when a hand is placed underneath it; soap is released immediately. It lights up red when batteries are low.

Large View Window The large view window makes it simple to monitor the soap level.

Dynamic Design Smooth contemporary lines, textured non-glaring surface, durable ABS plastic, optimum color choices and a "footprint" that is similar to most Bag-In-Box dispensers combine to make TouchFree the ideal choice. Choose from versatile dove gray or black.

Sanitary Refill Sealed refill prevents germs. Each refill has a new dispensing valve for accurate, consistent dispensing. Bag reduces packaging waste by 50%.

Green Seal™ Certified Formulas
5 FoamClean Skin Cleanser formulations that meet the GS-41 standard.

Modular Battery Pack
Uses 6AA batteries (included) that can be changed without tools.

Guaranteed Leakproof
By placing the dispenser pump at the top of the dispenser rather than the bottom, the risk of leaking at the valve is eliminated.

Multi-Lingual Packaging
Each bag is labeled in English, French and Spanish.

Keyed Locking Option
For added security, dispensers feature a keyed locking option. They can be converted from non-locking to locking and back.

The TouchFree M-STYLE dispenser has a special fitment under the refill collar. This allows it to use the same refills as the DuoClean manual dispenser. The TouchFree original dispenser does not have this special fitment. It uses its own refills.

FoamClean (foaming products)

CleanTouch (liquid products)
