Dimensions	51 L x 31.5 H x 45 W (inches)
Weight	70 lbs.

Specifications are subject to change without notice.

The **SSS Large Area Vacuum** is a versatile wide area vacuum cleaner that deep cleans large carpeted areas with ease. The 28" wide cleaning path quickly covers open areas such as large meeting rooms, hallways, ballrooms, lobbies and terminals. The LAV-30 on-board tool set provides the ability to clean from floor to ceiling with one machine. The hide-away 20 foot hose pulls out easily. Simply add the Turbo Brush for cleaning floor surfaces in and around obstacles; use the dusting tools for cleaning furniture, ledges, walls and ceiling fixtures. All of the tools easily store in the handle mounted caddy.

(2) 1 hp industrial motors create a deep cleaning action across the full 28" cleaning path. The seven height adjustments make it easy to adjust to different types of carpeting. The floating front suspension adjusts to changes in the floor contour and keeps the brushes at the optimum cleaning position.
