

The EarthCare™ Product Portfolio

Your guide to the Triple S EarthCare bundle.

Products in this portfolio meet recognized green standards or have features that contribute to the preservation and sustainability of a healthy environment.

The EarthCare™ Product Portfolio

What is EarthCare™?

Caring for the environment and providing a healthy workplace are demanding tasks that offer unquestionable long term benefits. Determining what is truly “environmentally friendly” or “green” has been a confusing process. The development of recognized standards greatly improves our ability to make purchasing decisions that contribute to the sustainability of a healthy environment for all.

The presence of the Triple S EarthCare seal indicates that a product meets “green” standards from a recognized organization (such as Green Seal, USGBC or the EPA) or the product offers significant features that contribute to the preservation and sustainability of a healthy environment. Look for the Triple S EarthCare seal when you want to make the places where we work, live, learn and play healthier.

Cleaning Products

The following Triple S Cleaning Products are pending approval by the Green Seal Organization.

Atlas Multi-Purpose Cleaner Degreaser

User and environmentally friendly water-based cleaner degreaser. Dissolves and emulsifies all types of soil. Penetrates and easily removes grease, oil, ink, coffee and other tough problem soils from any washable surface safely.

Product No. 13135 4x1 gallons

Compass Neutral Floor Cleaner

Low sudsing cleaner with a neutral pH is formulated for use with auto scrubbers. Excellent for general purpose cleaning and damp mopping. Special water softening formulation traps hard water deposits in solution so floors dry clean and clear of dulling film. Contains no inorganic ingredients.

Product No. 13138 4x1 gallons

Infinity Glass Cleaner

Removes smudges and greasy fingerprints. For use on glass, Plexiglas, chrome, plastic and other surfaces. This heavy duty glass cleaner is ideal for use in restaurants, cafeterias, institutional kitchens and industrial facilities.

Product No. 13141 4x1 gallons

Summit Heavy-Duty Cleaner

Removes grease in kitchens around stoves, ovens and vent hoods. Used on floors, walls and other hard surfaces. Degreases shop tools, equipment and machinery. Also effective against industrial grease, oil, animal fats, permanent marker and ink.

Product No. 13144 4x1 gallons

Fresh Start Washroom Tub & Tile Cleaner

Removes soap scum, water scale, urine deposits, lime, suntan and body lotions and other tough soils. Also removes unpleasant odors caused by urine and mildew from porous surfaces like floors and walls. Ideal for use in restrooms, locker rooms and shower areas.

Product No. 13147 4x1 gallons

This product meets Green Seal's environmental standard for industrial and institutional cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

Green Seal GS-37

Standard for Industrial and Institutional Cleaners

- Concentrate is non-toxic to humans
- Concentrate does not contain carcinogens or reproductive toxins
- Concentrate is not corrosive to skin or eyes
- Concentrate is not a skin sensitizer
- Concentrate is not combustible
- Use solutions are not toxic to aquatic life
- All individual ingredients are readily biodegradable
- Use solutions do not contribute to eutrophication (no phosphates)
- Product is sold as a concentrate
- Primary packaging is recyclable
- Does not contain specified prohibited ingredients

Cleanworks Dilution Management System

Click-n-Clean. Simple system requires minimum training time. Color-coded Concentrate / RTU labels help prevent incorrect application and potential misuse of product. Closed system prevents waste of concentrate through inaccurate mixing and helps control associated costs. Compact refill and dispensing unit requires less storage space and can reduce storage costs. High RTU yields results in dollar savings.

Cleanworks #23 Atlas Multi-Purpose Cleaner Degreaser
1.25 gallon (#13923)

Cleanworks #24 Compass Neutral Floor Cleaner
1.25 gallon (#13924)

Cleanworks #25 Infinity Glass Cleaner
1.25 gallon (#13925)

Cleanworks #26 Summit Heavy-Duty Cleaner
1.25 gallon (#13926)

Cleanworks #27 Fresh Start Restroom Cleaner
1.25 gallon (#13927)

Hydrogen Peroxide Cleaning Solutions

SSS HP-C3 Hydrogen Peroxide Cleaner/Degreaser

HP-C3 is a highly concentrated hydrogen peroxide all-purpose cleaner/degreaser that is non-toxic, contains no VOCs and is biodegradable. For use on most cleaning surfaces including windows, walls, floors, tile & grout, washroom fixtures, tubs, showers, toilet bowls and urinals. No rinse required.

Product No.	48039	12x1 quarts
	48038	4x1 gallons
	48041	½ gallon SmartClean Dilution Refill
	48042	1 each SmartClean Dispenser
	48040	7x11 ounces, plus 1 bottle SmartSpray System

Dilution System

SmartSpray System

The following Triple S Vacuums are Green Label approved by the Carpet and Rug Institute:

SSS ProSense II Dual Motor Upright Vacuum

Dual motor - Individual motors for the brush and the vacuum removes the deepest soil. Light handle weight reduces operator fatigue. Built-in handle makes it easy to carry. Full bag light alerts user when the filter bag should be replaced. The filter bag easily removes with the unique quick-snap feature on the back panel. The unit will not operate if the bag is missing or not installed properly. Operates at a quiet 68 dB sound level.

- #49001 ProSense II Dual Motor Upright Vacuum
- #49002 ProSense II Filter Bags – 10x10/pk

SSS Speedster 600 Back Pack Vacuum

The Speedster 600 delivers speed, efficiency and comfort and offers excellent dust and soil removal in any commercial application. 928 watt motor, 60' Safety Orange cord, 6 quart soil capacity, 68 dB sound level, heavy duty attachment kit, 3/3/3/lifetime warranty, weighs 9 lbs.

- #56001 Speedster 600 BPV
- #56002 Speedster 600 Filter Bags –20x10/pk

SSS Speedster 1000 Back Pack Vacuum

For power, strength and rugged durability. It's the most powerful and highest-capacity back pack vacuum available from Triple S. 1340 watt motor, 60' Safety Orange cord, 10 quart soil capacity, 69 dB sound level, heavy duty attachment kit, 3/3/3/lifetime warranty, weighs 11 lbs.

- #56003 Speedster 1000 BPV
- #56004 Speedster 1000 Filter Bags – 20x10/pk

CRI Green Label The Carpet Industry Standard

The tests follow a procedure that has been developed by carpet manufacturers and vacuum cleaner manufacturers and peer reviewed by scientists who are respected for their expertise in the study of maintenance and indoor air quality.

Soil Removal – The soil removal test protocol requires that the vacuum cleaner must remove in 4 passes a satisfactory quantity of soil from the standard test carpet.

Dust Containment – The dust containment test protocol evaluates the total amount of dust particles released into the surrounding air by the action of the brush rolls, through the filtration bag, and any air leaks from the vacuum cleaner system. This protocol requires that a vacuum cleaner will release into the surrounding environment no more than 100 micrograms of dust particles per cubic meter of air, well below levels stated in the National Ambient Air Quality Standards.

Carpet Appearance Retention – The test protocol for appearance retention requires that the vacuum cleaner should affect the appearance of the carpet no more than a one-step change, based on one year of normal vacuum use.

Vacuum cleaners must meet all three elements of the Standard in order to obtain authorization to display the official CRI Indoor Air Quality Testing Program Label or CRI Logo.

Can Liners

Recommendations

The green community recommends using liners that follow the EPA Comprehensive Procurement Guidelines.

The following Triple S Suppliers have liners that meet the EPA Guidelines. Please consult with them on sizes and availability:

- Pitt Plastics
- Rollpak Corporation

Comprehensive Procurement Guidelines for Can Liners

Comprehensive Procurement Guidelines for Can Liners

EPA's Recommended Recovered Materials Content Levels for Plastic Trash Bags ¹

Product:	Material (%):	<u>Post consumer Content (%)</u>
Plastic Trash Bags	Plastic	10-100

¹ EPA's recommendation does not preclude procuring agencies from purchasing a trash bag manufactured using another material, such as paper. It merely recommends that procuring agencies, when purchasing plastic trash bags, purchase items made from recovered materials.

Towel & Tissue

Triple S EarthCare™ Towel and Tissues are 100% recycled materials and meet EPA guidelines:

SSS EarthCare™ Center Pull Towel System

The SSS Center Pull Towel System features quality EarthCare towels. Each roll is perforated and consistently delivers one towel at a time. Every towel is clean, hygienic and highly absorbent. Capacity is 1,000 feet of towel for an extended time refill cycle.

Comprehensive Procurement Guidelines for Can Liners

Center Pull Towels

#76005	SSS EarthCare Center Pull Towel, White, 2-ply, 660', 6/cs	Fits Dispenser #76004
#76006	SSS EarthCare Center Pull Towel, Kraft, 1-ply, 1,000', 6/cs	Fits Dispenser #76007

Center Pull Dispensers

#76004	SSS Center Pull Towel Dispenser, #2 Cone, Smoked, 2/cs
#76007	SSS Center Pull Towel Dispenser, #1 Cone, Smoked, 2/cs

SSS Sterling Soft Jumbo Jr. Roll Tissue System

Jumbo Roll Tissues are perfect in high traffic locations where dependability and cost-per-use are major concerns.

Jumbo Jr. Roll Tissue

#58001	SSS Sterling Soft Jumbo Jr. Roll Tissue 1-ply White, 2000' feet/roll, 12/cs	Fits Dispenser #78250
#58002	SSS Sterling Soft Jumbo Jr. Roll Tissue, 2-ply White, 1,000', 3.3" core, 12/cs	Fits Dispenser #78250

Jumbo Jr. Roll Tissue Dispenser

#78250	SSS Sterling JRT Jr. Bathroom Tissue Dispenser with Knob, Beige
--------	---

Comprehensive Procurement Guidelines for Can Liners

Sanitary tissue products include bathroom and facial tissue, paper towels, napkins, and general-purpose industrial wipers. They are generally sold in rolls or sheets and are used in personal care, food service, and cleaning applications. The grades of sanitary tissue products covered in the CPG are manufactured for use by restaurants, hotels, schools, government agencies, and other similar commercial and institutional buyers. Some recycled-content sanitary tissue products are softer, stronger, and more absorbent than others.

Item	Post consumer Fiber (%)	Recovered Fiber (%)
Bathroom Tissue	20-60	20-100
Paper Towels	40-60	40-100

Entryway Matting

The following mats meet the criteria for the US Green Building Council LEED-EB Entryway Systems:

Mat Recommendations

- 80% of the dirt in a building comes from the outside. Carpet length should be a minimum of 10 feet. A longer mat is better.
- It is important to guide traffic so that entrants walk the entire length of the mat.
- The backing material is not specified by LEED-EB. Triple S recommends rubber backed mats. The use of vinyl is highly controversial in the green community due to disposal issues.

SSS Tough Grip Entrance Mat

- Constructed with high quality continuous nylon yarn.
- Nylon yarn is tightly twisted and heat set for exceptional durability. Resists staining and fading from the sun.
- Solid nitrile rubber backing captures the dirt and moisture in the mat; prevents soiling under the mat.
- 10 feet length is the standard length to comply with LEED.
- Custom Sizes: 3' and 4' widths up to 24' in length, 6' width up to 20' in length.
- Standard Sizes: 2x3, 3x4, 3x5, 3x10, 4x6, 4x8

Green Cleaning: Entryway Systems Requirements*

Utilize entryway systems (grills, grates, mats etc.) to reduce the amount of dirt, dust, pollen and other particles entering the building at all entryways, and develop the associated cleaning strategies to maintain those entryway systems, as well as the exterior walkways.

Considerations

High void volume within fibers that provides space for removed dirt to be trapped below the matting face surface and water to spread to larger mat area to improve drying. This inhibits dirt retracing and mold/mildew growth. Also high void volume mats are easier to clean to a cleaner state when vacuumed or shaken out.

- Even fiber height to provide maximum scraping surface at the show/mat interface. Also, even fiber height improves vacuuming suction efficiency.
- Solid backing captures the dirt and moisture in the mat, preventing soiling under the middle of the mat and reduces re-dirting the floor surface under the mat when being placed back into service after cleaning.
- A non-porous backing inhibits mold and mildew growth within the backing.
- The use of mold/mildew resistant materials in the mat construction to prevent mold/mildew growth with the materials.
- Fire retardant ratings that exceed DOC-FF-1-70 Nation Fire Protection Association ratings and can reduce insurance costs.
- Electrostatic Propensity levels of less than 2.5 KV, which means that interpersonal contact, should not feel electrical discharges when contacting other people or objects".

Microfiber Mopping Equipment

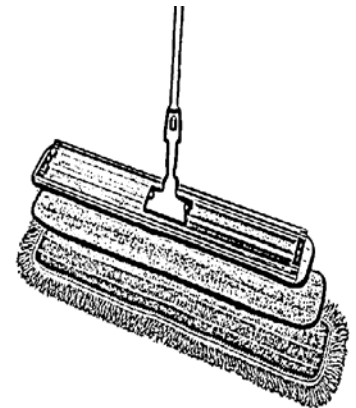

Microfiber mopping equipment is recommended in healthcare facilities because they are ergonomic: lightweight, quieter, less potential to injury (less lifting). They also reduce the amount of water and chemicals used due to the high absorbency and positive charge. Soil has a negative charge and is attracted by the positive charge of the mop resulting in improved soil removal.

**Best Practices for
Healthcare Facilities**

HD Microfiber Pro Line

Size	Yarn Color	Binding Color	Type
5" x 11"	Blue	Blue	Wet
5" x 11"	Blue		Dry

Odor Management

Odor management is necessary in a host of applications, especially restrooms. The OmniAir™ Continuous Odor Management carries the EarthCare™ seal because it emits low VOCs, has no propellants, requires no batteries and the refill components are recyclable. The dispenser has no moving parts so it makes no noise. Refills last 60-90 days. Consider alone the labor savings and dollar savings when batteries don't have to be replaced.

OmniAir Continuous Odor Management System

- 74359 OmniAir Dispenser (White)
- 74358 OmniAir Dispenser (Chrome)

OmniAir Fragrance Refill

- 74361 Citrus Twist
- 74363 Blue Wave
- 74360 Arctic Mist
- 74364 Mint Fresh
- 74362 Spring Bouquet
- 74365 OmniAir Freshness Pack
(Contains one each of listed refills above)

OmniAir Try & Buys

- 74361 OmniAir Try & Buy
Contains one White dispenser & one Citrus Twist refill
- 74367 OmniAir Try & Buy
Contains one White dispenser & one Arctic Mist refill

Ice Melters

SSS Easy Choice Ice Melter

Easy Choice is the best choice where there is vegetation. Most ice melting compounds are harmful to vegetation. Grass, shrubs, trees and plants are expensive to replace and maintain. The ingredients in Easy Choice are known to actually help green the grass in the spring. The red colored pellets are easy to see and prevent over application (source reduction). Excellent in the coldest climates -25°.

- 53009 40 lb. bag
- 53007 50 lb. carton
- 53008 100 lb. drum

Recycling Containers

Cube Trucks

A full line of trucks for waste collection, material transport and laundry handling.

Item No.	4616-06	Description:	Cube Truck with "We Recycle" Symbol			
		<u>Length</u>	<u>Width</u>	<u>Height</u>	<u>Mass</u>	<u>Volume</u>
		43.8"	31.0"	37"	500 lbs.	16' cu. ft.

Deskside Containers

An Easy and effective way to recycle paper.

Item No.	2955-06	Description:	Deskside Recycling Container, Small with "We Recycle" Imprint			
		<u>Length</u>	<u>Width</u>	<u>Height</u>	<u>Volume</u>	
		11.4"	8.2"	12 1/8"	13 5/8 qt.	

Item No.	2956-06	Description:	Deskside Recycling Container, Medium with "We Recycle" Imprint			
		<u>Length</u>	<u>Width</u>	<u>Height</u>	<u>Volume</u>	
		14.4"	10.2"	15"	28 1/8 qt.	

Item No.	2957-06	Description:	Deskside Recycling Container, Large with "We Recycle" Imprint			
		<u>Length</u>	<u>Width</u>	<u>Height</u>	<u>Volume</u>	
		15.2"	11.0"	19 7/8"	41 1/4 qt.	

Mobile Collection Equipment

Industrial strength construction transports heavy loads with ease.

Item No.	1305-06	Description:	Bulk Collection Tilt Truck with "We Recycle" Symbol, Standard Duty			
		<u>Length</u>	<u>Width</u>	<u>Height</u>	<u>Mass</u>	<u>Volume</u>
		60.5"	28.0"	38 5/8"	850 lbs.	1/2 cu. yd.

Recycling Boxes

For use in areas of high paper generation, such as near copiers, printers and in mailrooms.

Item No.	5172-06	Description:	Recycling Box with "We Recycle" Symbol			
		<u>Length</u>	<u>Width</u>	<u>Height</u>	<u>Volume</u>	
		20.0"	15.4"	13 1/2"	12 1/2 gal.	

Glutton Recycling Containers

Industry leader in waste and material handling applications.

Item No.	3559-06	Description:	BRUTE® Roll Out Recycling Container w/ "We Recycle" Symbol, w/ Lid			
		<u>Height</u>	<u>Square</u>	<u>Volume</u>		
		38 3/4"	23 5/8"	50 gal.		

Water Saving Devices

SSS Merlin™ AutoFlush – Clamp System

The AutoFlush Unit clamps on the existing flush handle without having to remove the handle.

	Item #
AutoFlush Clamp Plain, Chrome	74293
AutoFlush Clamp w/Courtesy Manual Flush, Chrome	74291

SSS Merlin™ AutoFlush System - Original

The AutoFlush Valve replaces the existing flush handle.

	Item #
AutoFlush, White	74161
AutoFlush, Chrome	74179
AutoFlush w/Courtesy Manual Flush, White	74162
AutoFlush w/Courtesy Manual Flush, Chrome	74180

AutoFlush Original for Coyne & Delaney Fixtures

The AutoFlush Valve replaces the existing flush handle.

	Item #
C&D AutoFlush, White	74192
C&D AutoFlush, Chrome	74193
C&D AutoFlush w/Courtesy Manual Flush, White	74194
C&D AutoFlush w/Courtesy Manual Flush, Chrome	74195

SSS Merlin™ AutoFlush – Tank Toilet System

The AutoFlush Toilet System installs within the tank of standard toilets.

	Item #
AutoFlush Tank Toilet Wireless, White	74283
AutoFlush Tank Toilet Wireless, Chrome	74284
AutoFlush Tank Toilet Wired, White	74294
AutoFlush Tank Toilet Wired, Chrome	74295

SSS Merlin™ AutoFaucet System

The AutoFaucet System mounts through the counter and rinses hands without touching faucet handles. Available with top mount infrared sensor or radius surround sensor technology, which detects user from any angle.

	Item #
AutoFaucet - Infrared (faucet only)	74237
AutoFaucet - Infrared w/4" cover *	74251
AutoFaucet - Infrared w/8" cover *	74252
AutoFaucet - Surround Sensor (faucet only)	74285
