

EnzyFloor

4-5 Liter/Case

DESCRIPTION:

- A biological cleaner/degreaser formulated with specific enzymes designed to degrease floors soiled with grease and various food proteins

TECHNICAL CHARACTERISTICS:

- Color: Green
- pH (Pure): 7.0
- pH (1:200 solution): 7.0
- Biodegradability: >90%
- HMIS Health Rating: 0 (in concentrate)

USE:

- Normal cleaning of various floors in kitchens and food locations
- Machine cleaning of VCT finished floors and natural surfaces such as marble, terrazzo and concrete
- Safe for manual hand mopping or swing buffer applications

DOSAGE:

- 1.0 ounce/gal mop application
- 2.0 ounce/gal autoscrubber or swing buffer application

REMARKS:

- **Best used with warm or hot water.** Allow product to “set” for 10 minutes on substrate being cleaner before removing with either wet mop or vacuum squeegee
- For best results, use EnzyFloor regularly in areas where food grease build-up is a problem
- Store at room temperature. Do not allow to freeze
