

## Powder Laundry

### **POWDER RUST REMOVER SOUR 17023 (50 lb. Box)**

Powder Rust Remover Sour is an acid based neutralizer with iron removing properties. This product does not contain hydrofluoric acid. It is designed to remove iron oxide deposits from fabrics. Powder Rust Remover Sour prevents and removes red spots, brightens yellowing linen and reduces pH to prevent browning when linens are ironed.

### **POWDER LAUNDRY DETERGENT 17024 (50 lb. Box)**

Powder Laundry Detergent is a high quality, top load laundry detergent that is highly phosphated with soil dispersants and optical brighteners. It is a good cleaner at all temperatures and at low concentrations. Due to the amount and power of the optical brightening system this product produces brilliant colors and bright whites. Bleaching is seldom necessary. This is a top of the line all-in-one powdered laundry detergent. USDA-B1 approved.

### **CITRUS LAUNDRY DETERGENT 17025 (50 lb. Box)**

Citrus Laundry Detergent is a medium quality top load, powdered laundry detergent. Citrus Laundry Detergent is designed specifically for use by institutional and commercial laundries. It has good foam control properties and is an excellent rinser. For medium soils. This product is an overall great performer.

### **POWDER ENZYME DETERGENT 17022 (50 lb. Box)**

Powder Enzyme Detergent is biologically safe and environmentally friendly multi-functional laundry detergent. Since it does not require high alkalinity to work it can greatly simplify the laundering process by eliminating the laundry break and sour steps. Powder Enzyme Detergent will not harm fabrics, requires less bleaching and will work in lower wash temperatures. Contains color safe bleach and optical brighteners.

## RoyalTouch™ Liquid and Powder Laundry Solutions

Specially-formulated cleaning solutions for use in commercial laundries.

Laundry Care

## Liquid Laundry

### **LIQUID LAUNDRY BREAK 17001 (5 G) 17057 (15 G) 17002 (55 G)**

Liquid Laundry Break is a concentrated laundry break that contains soil dispersants, suspending agents, alkaline builders and water conditioners.

### **LIQUID LAUNDRY DETERGENT 17003 (5 G) 17058 (15 G) 17004 (55 G)**

Liquid Laundry Detergent is a concentrated laundry detergent containing formulated with a combination of nonionic and anionic surfactants and powerful dispersants that will emulsify and suspend soils in liquid laundry systems. Contains optical brighteners and leaves no alkaline residue in clothes.

### **LIQUID CHLORINE BLEACH 17005 (5 G) 17059 (15 G)**

Liquid Chlorine Bleach is a solution of 10% sodium hypochlorite for use in general laundry applications where the extra destaining power of active chlorine is desired. Products may be used as a soil removal aid or as a destaining presoak for blood and other difficult protein stains. Safe to use on cotton and synthetic fabrics. Not for use on natural silk, wool or nylon fibers.

### **LIQUID OXYGEN BLEACH 17006 (5 G) 17060 (15 G)**

Liquid Oxygen Bleach (color safe) is a peroxide bleach for safe bleaching of colored fabrics. The product is an extremely concentrated oxygen compound, safe for most fabrics and dyes when used as directed. Liquid Oxygen Bleach (color safe) does not cause yellowing. This is most effective at temperatures over 140 degrees.

### **LIQUID SOFTENER 17008 (4/1 G) 17009 (5 G)**

Liquid Softener is a concentrated fabric softener used in automated dispensing systems. The viscosity has been controlled to allow uniform dispensing. The citrus odor leaves a fresh scent in the washed clothes and linens.

### **LIQUID ENZYME DETERGENT 17014 (5 G)**

Liquid Enzyme Detergent is biologically safe and environmentally friendly multi-functional laundry detergent. Since it does not require high alkalinity to work it can greatly simplify the laundering process by eliminating the laundry break and sour steps. Ideally used as a presoak for natural occurring stains. Contains color safe bleach and optical brighteners. Can be used in lower temperature washing.

### **LIQUID SOUR 17007 (5 G) 17061 (15 G)**

Liquid Sour is a concentrated acid neutralizer and anti-yellowing agent for use in commercial laundries. Liquid Sour is a concentrated formulation that reduces the residual alkalinity in clothes and linens.

### **LIQUID BUILT DETERGENT 17010 (5 G) 17062 (15 G)**

Liquid Built Detergent is a one shot liquid consisting of alkaline builders coupled with emulsifiers for liquid laundry systems. Excellent for medium soils. For use in motels, hotels and nursing homes.

### **PREMIUM LAUNDRY DETERGENT 17011 (5 G) 17063 (15 G)**

Premium Laundry Detergent is a super concentrated laundry detergent. This product contains a combination of nonionic and ionic surfactants and powerful dispersants that will emulsify and suspend soils in liquid laundry systems. Contains optical brighteners and leaves no alkaline residue in clothes.

### **LIQUID SOUR/SOFT 17012 (5 G) 17064 (15 G)**

Liquid Sour/Soft is a combination of acid neutralizers and quaternary agents for liquid laundry systems. Liquid Sour/Soft eliminates static electricity, improves handling, and eliminates excess alkalinity in the fabric while at the same time neutralizing the fabric for longer life and safer ironing.

### **LAUNDRY SIZING 17013 (5 G)**

Laundry Sizing is a blue emulsion for imparting body (similar to starch) especially to polyester and polyester blends. Also does an excellent job with all other fabrics.

### **SOLID ENZYME LAUNDRY DETERGENT 17026 (4/6 lb. Box)**

Solid Enzyme Laundry Detergent is a cast detergent consisting of builders, chelators, surfactants, and enzymes. It offers excellent results in top load machines.

## Powder Laundry

### **POWDER BREAK 17015 (50 G Pail)**

Powder Break is a combination of alkaline builders, water conditioners, soil dispersants and suspending agents. Removes heavy soils. This product is treated to reduce noxious dusting. Also neutralizes acid soil to boost detergent cleaning power.

### **LAUNDRY DETERGENT 17016 (50 lb. Box)**

Laundry Detergent is a concentrated liquid laundry detergent. This product contains a combination of nonionic and anionic surfactants and powerful dispersants that will emulsify and suspend soils in liquid laundry systems. Contains optical brighteners and leaves no alkaline residue in clothes. Best if used where there are high concentrations of oily and greasy soils, such as lipstick, shoe-polish and sun tan lotion.

### **POWDER OXYGEN BLEACH 17017 (50 G Pail)**

Powder Oxygen Bleach (color safe) is a carbonate based oxygen bleach. This product contains oxygen in a stable form along with activators and enhancers. Powder Oxygen Bleach (color safe) does not cause yellowing. It is most effective at temperatures over 140 degrees.

### **10% CHLORINE BLEACH 17018 (50 G Pail)**

10% Chlorine Bleach is a powdered formulation of sodium hypochlorite for use in general laundry applications where the extra destaining power of active chlorine is desired. It may be used as a soil removal aid or as a destaining presoak for blood and other difficult protein stains. Safe to use on cotton and synthetic fabrics. Not for use on natural silk, wool or nylon fibers.

### **POWDER SOUR 17019 (50 G Pail)**

Powder Sour is a concentrated acid neutralizer and anti-yellowing agent for use in commercial laundries. Powder Sour is a concentrated formulation that reduces the residual alkalinity in clothes and linens.

### **POWDER SOFTENER 17020 (50 lb. Box)**

Powder Softener is a quaternary softener with a very pleasant scent. This concentrated fabric softener/conditioner is designed for use in the rinse phase of laundry systems. It reduces wrinkles, eliminates static electricity and speeds up the drying time leaving a soft feel and fresh smell.
