

Descaler

DESCALER 17039 (4/1 G) 17040(5 G)

Descaler is a liquid lime scale remover. This product contains an anti-foaming agent so it can be used in high agitation machines without problems. It contains surfactants to reduce surface tension and aid penetration. Descaler may also be used to descale steam tables and to scald tableware.

Sanitizers

CBI LOW TEMP SANITIZER 17029 (5 G)

CBI Low Temp Sanitizer is a concentrated and stabilized 10% sodium hypochlorite solution. EPA registered.

MULTI-QUAT SANITIZER 17055 (4/1 G) 17056 (5 G)

CBI Multi Quat Sanitizer is a highly effective third sink sanitizer. It is also designed for hospitals, food processing plants, dairies, restaurants, bars, animal quarters, kennels and institutions where disinfection, sanitation and deodorization are of prime importance. When used as directed, CBI Multi Quat Sanitizer is formulated to disinfect pre-cleaned inanimate, hard surfaces such as walls, floors, sink tops, tables, chairs, telephones and bed frames. In addition CBI Multi Quat Sanitizer can also be used to sanitize previously cleaned food grade eggs in shell egg in egg processing plants.

Warewash Detergents

POT & PAN

GREEN POT & PAN 17051(4/1G) 17052(5G)

Green Pot & Pan is a high solids, high sudsing, high dexterity, phosphate free top of the line concentrated liquid detergent. This product contains a foam booster for long lasting suds. Green Pot & Pan is tough on soils yet gentle to the skin. Scented with a citrus fragrance and good for all water conditions. Green in color.

PREMIUM POT & PAN 17053(4/1G) 17054(5G)

Premium Pot and Pan detergent is a highly concentrated, non-abrasive, phosphate free liquid detergent for cleaning the most difficult soils. Premium Pot and Pan will provide copious amounts of stable foam in all water conditions for long lasting effectiveness. Fresh citrus fragrance. Rinses freely. Mild pH.

LOW FOAM POT & PAN 17065(5G)

Detergent is specifically formulated to use with agitating pot and pan sinks. The low foam formula allows the surfactants and soil removing ingredients to work with agitation in the sink without producing foam that reduces pump efficiency.

LEMON POT & PAN 17049(4/1G) 17050(5G)

Lemon Pot and Pan detergent is formulated for value and is for use in light to medium soil loads. Lemon Pot and Pan has a pleasant citrus scent and is effective on grease while not irritating hands.

DETERGENTS

LOW TEMP DETERGENT 17027(5G)

Low Temp Detergent is a liquid dishmachine detergent for heavy-duty use in medium to hard water and is a premium low temperature dishmachine detergent.

HIGH TEMP DETERGENT 17028(5G)

High Temp Detergent is a premium, liquid warewash detergent with high alkalinity, high chelation and a high builder level. Contains polymeric dispersants to work scale free in water with high solids. This product is a premium high temperature dishmachine detergent that is used primarily through an automated system.

ENCAPSULATED DISH MACHINE DETERGENT 17041(4/10 lb.)

Encapsulated Dishmachine Detergent is a highly alkaline powder dish detergent containing chlorine, chelators and dispersing chemicals. Bonded together they offer excellent results and use cost that will exceed all solid products. Works in high or low temperature machines and is primarily used through an automated system.

METAL SAFE DISH MACHINE DETERGENT 17042(4/10 lb.)

Metal Safe Dishmachine Detergent is a premium metal safe dishmachine detergent. This product has powerful cleaning chemistry and rinses freely. It is safe on aluminum, pewter and fine china. Extra chelating ability for hard water conditions. Works in high or low temperature machines.

SOLID POT & PAN DETERGENT 17043(4/5 lb.)

Solid Pot and Pan Detergent is a 100% active detergent. This product is an excellent foamer and quickly cuts grease and tough soils. This product has a pleasant scent and is mild to the skin.

POWDER DISH MACHINE DETERGENT 17046 (20/3 lb.) 17047(50 G) 17048(4/8 lb.)

Powder Dishmachine Detergent is a highly concentrated alkaline machine wash powder. Contains chlorine and phosphate. Excellent for medium soils.

SOLID DISH MACHINE DETERGENT 17068 (4/8 lb.)

Solid Dishmachine Detergent is a premium high temperature dishmachine detergent formulation. It provides excellent cleaning ability, free rinsing, and use cost. Solid Dishmachine Detergent is for use in solid dispensing equipment.

Warewash Rinses & Presoaks

RINSES

HIGH SOLIDS RINSE ADDITIVE 17030(4/1G) 17031(5G)

High Solids Rinse Additive is a highly effective, economical anti-spotting agent and anti-foamer for accounts without water softeners. High Solids Rinse Additive is primarily used through a rinse injector on dishmachines. This product breaks down surface tension of water so water droplets cannot form on newly cleaned china and silverware. The result is the sheeting of rinse water and therefore no water spots. Contains acid for high temperature dishwashing operations.

PREMIUM RINSE 17032 (4/1G) 17033 (5G)

Premium Rinse is a highly concentrated liquid rinsing agent for machine dish washing. This premium product contains defoamers, chelating agents and is an effective drying agent for high temperature machines.

RINSE ADDITIVE 17034 (4/1G) 17035(5G)

Rinse Additive is a concentrated liquid rinsing agent for machine dish washing. This product contains defoamers, chelating agents to provide excellent results. Best for economical high temperature machines.

LOW TEMPERATURE RINSE 17036 (5G)

Low Temperature Rinse is a highly effective, economical anti-spotting agent and anti-foamer. This product is primarily used through a rinse injector on dish machines. This product breaks down surface tension of china and silverware so that water droplets cannot form. The result is the sheeting of rinse water and therefore no water spots. This product is best for low temperature operations.

SOLID RINSE 17044 (4/5 G)

Solid Rinse is a concentrated drying agent cast in solid form for automatic dishmachines. Excellent de-foaming and sheeting. Non-acid.

PRESOAKS

SOLID PRESOAK 17045(4/8 lb.)

Solid Presoak is a mildly alkaline cast detergent formulated for presoaking and detarnishing silverware. Contains an enzyme booster for enhanced performance. Works well in soft or hard water.

PRESOAK 17037(4/1G) 17038(5G)

Presoak is a silver and flatware-brightening agent. Contains an enzyme booster for enhanced performance. For presoaking and detarnishing silverware.
