

STERLING *Select*: Roll Towel with Reduced-Core

Conservation is on everyone's mind. Our 10" x 12" towel is 25% larger than the standard 8" x 11" towel and provides enough towel to dry your hands without reaching for another. Consider that patrons use on average 2 1/2 towels (240 sq. in.) to dry his or her hands with the standard 8" width towel, and your towel usage will be cut in half!

- Use fewer towels/less paper to dry your hands. Lessen environmental impact.
- Premium soft, absorbent towel offers performance your patrons will appreciate.
- Highly-attractive embossing enhances the feel and improves performance.
- Reduced-Core - smaller core conserves natural resources and reduces waste.
- 100% recycled paper. Exceeds EPA guidelines of 40% post-consumer content.
- One towel...One Dry message is on the dispenser providing a constant reminder to conserve.
- The Sterling Select premium white towel is excellent for office buildings and upscale restaurants.
- The Sterling Kraft towel is targeted at schools and other hi-capacity use facilities.

Our dependable, touch-free dispenser uses no battery, lessens environmental impact and eliminates labor to change battery. The stylish, transparent smoke cover looks great in any restroom. Refills load quickly and conveniently.

Our Electronic touch-free dispenser is an energy efficient, battery powered alternative to our standard touch-free dispenser. An internal sensor can be set for high or low traffic areas, give you control and piece of mind.

Our Compact touch-free dispenser accomidates standard 8" wide roll towels and automatically cuts them to 10" in length - for a 20% paper savings.

All of our dispensers come with a patented cutting mechanism provides quiet operation with minimum effort and reduced tab-outs. Includes lock and mounting hardware.

STERLING *Select*: Embossed Bathroom Tissue with Reduced-Core

Space saving two-roll dispenser. Transparent smoke cover matches any decor and enables staff to easily monitor tissue level. Rolls are used sequentially to eliminate stub roll.

- Each dispenser holds equivalent of 4 rolls of standard 2-ply bath tissue.
- Rolls are not individually wrapped - reduces waste.
- Reduced-Core - smaller core conserves natural resources and reduces waste.
- Higher capacity reduces time required to refill dispenser by 50% = Labor Savings
- Higher capacity improves customer satisfaction with less frequent run-outs.
- 100% recycled content. Exceeds EPA guidelines of 40% post-consumer content.
- Reduced-Core - 1 roll equals 2 standard rolls.
- Smaller case is easier to handle and store.
- Embossed tissue is soft and plush.
- Green Seal Certified.

STERLING *Select*: Jumbo Jr. Tissue with Reduced-Core

Attractive twin dispenser accommodates two rolls and is constructed of durable ABS plastic for long-term durability. The translucent smoke cover helps staff monitor supply to reduce run-outs. Simple transfer system promotes the use of one roll before the second roll is accessed. Includes lock and mounting hardware.

- Reduces storage space requirements; dispenser holds the equivalent of 10+ rolls of standard bath tissue.
- High capacity rolls improve customer satisfaction with less frequent run-outs.
- Reduced-Core - smaller core conserves natural resources and reduces waste.
- Reduced-Core = Reduced maintenance and labor required to fill dispensers.
- 100% recycled content. Exceeds EPA guidelines of 40% post-consumer content.
- Excellent choice for high-volume locations such as: schools, public facilities, healthcare and office building.
