

## Sterling Select Roll Towel with Reduced-Core™

### *One Towel...One Dry*

Conservation is on everyone's mind. Our 10" x 12" towel is 25% larger than the standard 8" x 11" towel and provides enough towel to dry your hands without reaching for another. Consider that patrons use on average 2½ towels (240 sq. in.) to dry his or her hands with a standard 8" width towel, and your towel usage will be cut in half!

- Use less towels/paper to dry your hands. Lessen environmental impact.
- Premium soft, absorbent towel offers performance your patrons will appreciate.
- Highly-attractive embossing enhances the feel and improves performance.
- Reduced-Core™ - smaller core conserves natural resources and reduces waste.
- 100% recycled paper. Exceeds EPA guidelines of 40% post-consumer content.
- One Towel...One Dry message is on the dispenser providing a constant reminder to conserve.
- The Sterling Select premium white towel is excellent for office buildings and upscale restaurants.
- The Sterling Select kraft towel is targeted at schools and other hi-capacity use facilities.

Stylish, transparent smoke cover looks great in any restroom. Dependable, touch free dispenser uses no battery, lessens environmental impact and eliminates labor to change battery. Refills load fast and easy.

Patented cutting mechanism provides quiet operation with minimum effort and reduced tab-outs. Includes lock and mounting hardware.

## Sterling Select Bathroom Tissue with Reduced-Core™

### *The Space & Labor Saving Solution*

- Each dispenser holds the equivalent of 4 rolls of standard 2-ply bath tissue.
- Rolls are not individually wrapped - reduces waste.
- Reduced-Core™ - smaller core conserves natural resources and reduces waste.
- Compressed roll size - 1 roll equals 2 standard rolls.
- Smaller case is easier to handle and store.
- Embossed tissue is soft and plush.
- Higher capacity reduces time required to refill dispenser by 50%.
- Higher capacity improves customer satisfaction with less frequent run-outs.
- 100% recycled tissue. Exceeds EPA guidelines of 40% post-consumer content.
- Excellent choice for any facility.

Space saving two-roll dispenser. Transparent smoke cover matches any décor and enables staff to easily monitor tissue level. Rolls are used sequentially to eliminate stub roll

# STERLING Select Towel & Tissue Systems

## Sterling Select Jumbo Jr. Tissue with Reduced-Core™

### High Capacity Solution

- Reduces storage space requirements; dispenser holds the equivalent of 10+ rolls of standard bath tissue.
- High capacity rolls improve customer satisfaction with less frequent run-outs.
- Reduces maintenance and labor required to fill dispensers.
- Reduced-Core™ - smaller core conserves natural resources and reduces waste.
- 100% recycled tissue. Exceeds EPA guidelines of 40% post-consumer content.
- Excellent choice for high-volume locations such as: schools, public facilities, healthcare and office buildings.

Attractive twin dispenser accommodates two rolls and is constructed of durable ABS plastic for long-term durability. The translucent cover helps staff monitor supply to reduce run-outs. Simple transfer system promotes the use of one roll before the second roll is accessed. Includes lock and mounting hardware.
